- Students will bring a picture or drawing of the garden scene they would like to recreate, as well as background fabrics that they think will be useful – think sky, land, and water! Sandy will bring some fabrics and tie materials too. Students complete a background layer of the small wallhanging during this class.

2nd class:

- Students can use materials from Sandy's wonderful embellishment stash (or their own, if they wish) – this could be anything from stones, shells, wool – whatever you want to include! Students will learn tips on scale, proportion, and focal points, and how to embellish the background using specialty thread. Sandy will also teach some crazy quilt stitches that will help to enhance the piece! By the end of the second class, Students will have their small wallhanging top completed.
